

READY FOR MEET

Goodland Prepares to Entertain Women's Clubs.

State Federation Meets There Three Days Next Week.

Goodland, Kan., Sept. 17.—Preparations are being made to entertain the Federation of Women's Clubs, which meets here September 21, 22 and 23. The Sixth district clubs are noted for furnishing large delegations to those annual gatherings and the townspeople are exerting themselves in making preparations for their entertainment and reception.

Mrs. J. M. Miller of Council Grove, president of the Kansas Federation of Women's Clubs, will be present, as well as Mrs. J. E. Raymond of Girard, state vice president, and Mrs. A. H. Blair of Wakeeney and Grace L. Snyder of Cawker City, past presidents of the Sixth District Federated Women's Clubs.

R. M. Anderson of Beloit, Republican candidate for congress in the Sixth district, has accepted an invitation to be present and address the federation the night of the twenty-second.

ADVOCATE SALE AT ORCHARD.
Apples Are Needed at Home Say Agricultural College Observers.

Manhattan, Kan., Sept. 17.—Sell your apples to your neighbors.
This is the advice given by the agricultural college to Kansas apple growers. It is pointed out that the small home orchards are practically all gone and that the farmer neighbors must buy fruit for the family of the professional fruit grower. Use telephone, newspapers, post cards, posters and bulletin boards to let the public know where good fruit may be obtained, urge the college experts.
The college, after going over the territory pretty thoroughly, feels that there are very few localities where more than enough apples will be produced for home consumption, and even in those sections where considerable fruit is grown a great deal of it may be sold to farmers and townfolk who will come to the orchards and haul it away. This orchard trade is the most profitable of all. The grower needs no package, has no grading and very little sorting to do, no packing, hauling, storage, or freight expense to meet.

SOUTHWESTERN IS OPEN.

College at Winfield, Kan., Started Work Wednesday Morning.

Winfield, Kan., Sept. 17.—With the Rev. A. E. Kirk of Wichita, delivering the matriculation address Wednesday morning, Southwestern college opened this week for the thirtieth session. All day Tuesday was taken up with registration of students. The enrollment is fully up to the expectations. About thirty-five seniors are matriculated. Students will continue to arrive during the remainder of the week.

The subject of Rev. Mr. Kirk's address was: "The Place of the Christian College in Our Educational System." He handled the subject in a scholarly manner.

Three old men and fifteen new recruits reported to Coach Bates for football practice Monday. The majority of last season's team will return. Cooper college plays the Moundbuilders on the home gridiron September 22.

YOUNG PEOPLE TO SALINA.

Missouri-Kansas Conference, Swedish Mission Church During Holidays.

Salina, Kan., Sept. 17.—At a business meeting of the Swedish Mission church this week the members voted to entertain the Young Peoples conference of Kansas and Missouri in annual session during holiday week. This will bring 300 visitors here from Swedish Mission churches of Kansas and Missouri. The Young People's society and the church will co-operate in making the meeting a successful one. The Rev. N. W. Lund of Lindsborg is the president of the conference.

PUT SICK MAN OFF TRAIN.

Death Resulted and Widow Wants \$20,000 Damages From Santa Fe.

Kinsley, Kan., Sept. 17.—A damage suit unusual in its allegations as well as its size, has been filed here by F. Dumont Smith, a Hutchinson lawyer. It is an action for \$20,000 against the Atchison, Topeka & Santa Fe railroad brought on behalf of the widow and children of W. C. Marr of Gentry, Ark.

Marr, the petition alleges, purchased a ticket at San Jacinto, Cal., for Joplin, Mo., over the Santa Fe. He became ill with typhoid fever while on the train, and early on the morning of June 15 last the conductor and brakeman forcibly ejected the sick man from the train, despite the fact that his ticket read to Joplin.

ENGINE EXHIBIT

Tractors, Plows, Balers and Motors Great and Small.

Immense Display of Farm Machinery at the Fair.

The first thing at the fair to attract the rural man's eye is the machinery exhibit, located midway between the Topeka avenue entrance and the grand stand, on the right-hand side of the drive. Here are displayed the latest inventions and labor-saving devices for expediting farm work known to the mechanical world.

Not only is the machinery department of special interest to the man of the farm, but a few hours spent in this section by the farmer's wife will be educational. Small engines are shown running cream separators and washing machines, two tasks that are always looked forward to with dread by the lady of the household.

For the mechanically inclined man there is everything known in the gas engine line, from the small engine used to run the grinder, to the large tractor that is capable of doing the work of eight horses in the field. All machines are demonstrated by factory representatives, who are glad to answer questions.

W. R. Smith & Co., a Topeka firm, has charge of the Cushman Engine company's display. Gas engines manufactured by the United Engine company of Lansing, Mich., are displayed by Graber & Brittenstein of North Topeka.

Among those who have contributed to the success of the machinery exhibit are the following firms: The Dempster Manufacturing company of Boatsville, Neb.; the Associated Manufacturers company of Waterloo, Ia.; the International Harvester company of Joliet, Ill.; Wm. Galloway company of Marion, O.; the Rock Island Plow company of Rock Island, Ill.; Emerson-Brantingham company of Minneapolis, Minn.; Russell Grade Manufacturing company of Minneapolis, Minn.; Fairbanks, Morse & Co. of Kansas City, Mo.; Luebbers Baler company; Milwaukee Air Power Pump company; Western Land Reclamation company, Hastings, Neb.; and the Admiral Hay Press company of Kansas City, Mo.

At a meeting of the city commission Newland recommended that the patronage of the city be "split up," proposing that the coal for the water works be purchased from the Topeka Cold Storage, Ice and Coal company, and the rest of the contract be given to the Southwestern Fuel company.

Porter contended that bids for the city's entire supply had been called for by the city and that bids had been submitted on that basis. He made a motion that the contract be awarded to the Southwestern company, it being the lowest bidder. There was no second to his motion and the matter was again referred to Newland and Porter with W. H. Wasson, city commissioner of finance, as a third member of the committee.

ROAD BOOSTERS NAMED.

Delegates to Jefferson Highways Association Meeting.

Governor Capper has named ten delegates to attend the meeting of the Jefferson Highways association in New Orleans November 15-16. The Kansas will boost for the establishment of one of the big north and south highways in such a manner that it will pass through Kansas. One of the important highways is to be routed from Winnipeg, Canada, south to New Orleans. Another follows the west bank of the Mississippi river south from St. Paul to New Orleans. Kansas is appointed to attend the meeting are: W. S. Gearhart, Manhattan; O. M. Wilhite, Emporia; T. H. Whitting, Council Grove; L. E. Crawford, Winfield; H. H. Taylor, Hutchinson; John Nicholson, Newton; W. J. Kreibiel, McPherson; Harry L. Woods, Wellington; Roy E. Bailey, Salina, and W. W. Webb, Topeka.

Several powerful electric stations are planned for Ecuador, which wireless communication will be established with the entire world.

Cocoon Oil Makes A Splendid Shampoo

If you want to keep your hair in good condition, the less soap you use the better.

Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and is very harmful. Just plain mullet seed oil (which is pure and entirely greaseless), is much better than soap or anything else you can use for shampooing, as this can't possibly injure the hair.

Simply moisten your hair with water and rub it in. One or two teaspoonsful will make an abundance of rich, creamy lather, and cleanses the hair and scalp thoroughly. The lather rinses out easily and removes every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy and easy to manage.

You can get mullet seed oil at most any drug store. It is very cheap, and a few ounces is enough to last everyone in the family for months.—Adv.

COMPANY A TO PANAMA

Leavenworth Signal Corps Ordered South For Canal Zone Service.

Leavenworth, Kan., Sept. 17.—Word came from Washington Thursday evening for Company A, signal corps, to prepare to go to Panama for duty and the company will go direct from Chicago to the canal zone. The company leaves here for a month's service in the business men's training camp. Field and all other equipment will be taken along so that it will not return. Company A has ninety highly trained signal soldiers and has been on duty here four years on instruction service with the army service schools.

New-Way Wonder for Corns, "Gets-It"

The Big Surprise for Corn Owners, It's Sure, Simple, Safe, Quick.

Listen to the wee story of "Gets-It," the world's greatest corn remedy. It's a short story—only about two feet, "Mary had a little 'Gets-It,' and corns upon her toe; and every time

she put on 'Gets-It' the corn was sure to go."

Mary, like thousands of others, used to be a heroine, suffering martyrdom, using painful bandages, irritating salves, sticky tape, toe-harshes, blood-bringing razors and scissors! She says now there's no sense in it. Use "Gets-It," applied in 2 seconds. Easy, simple, new way—just painless common sense! Millions are doing it. Never fails. You can wear smaller shoes now. You don't have to limp around any more, or walk on the side of your shoes to try to get away from your corns! You know for sure before you use "Gets-It" that the corn or callus is going away. For corns, calluses, warts and bunions.

"Gets-It" is sold by all druggists, 25c a bottle, or sent direct by E. Lawrence & Co., Chicago. Sold in Topeka and recommended as the world's best corn remedy by Flad Bros.—Adv.
